

Certificate of Analysis

Product: Reference Emulsion Wash
Solution
Product Number: IL-20002400D
Shelf Life: 2 Years
Storage Conditions: 18 – 25 ° C
Quantity: 1000mL

Parameter	Specified Range	Units
Appearance	White opaque liquid, free of visible particulate matter	
% T @ 405nm	9 - 13	
% T @ 660nm	45 - 55	

Details
Function: Wash-R Emulsion for use with the ACL Elite/Elite PRO, 8,000-10,000 Analyzers.
Quality Specifications: Passed
Reagent Contents: An aqueous solution containing salt, silicone oil and emulsion. For in vitro diagnostic use only.

Traceability

Analyte	Standard	Test Method
%T@ 405nm	OEM Reagent	Beckman Spectrophotometer (Transmission)
%T@ 660nm	OEM Reagent	Beckman Spectrophotometer (Transmission)
